YOUR COMMITMENT

When you Join the Third Way movement you are confirming to all that you are committing your unique energy to the nature of the movement. That you will progress the movement in whatever way you can within your field of influence, and that you support doing what is needed for the future safety of women and children. In this, I wish to simply gather support, and connect with people, organisations, and charities that support the feminine.

Joining the Third Way movement means you are willing to stand up for women's rights, the sisterhood, girl power, goddess femininity, and the Matriarchy.

Joining the Third Way movement means you recognise yourself, your organisation, or charity, as being one that will no longer stand by and watch as the patriarchy, hell bent on destroying all things feminine; including our mother earth, tries to retain the weak foundations it has dug deep into society, refusing to acknowledge its crumbling power.

By joining the Third Way movement, once you have consciously committed your energy, you have changed your unique vibration and your energy will now naturally align with the energy of an Aquarian age future. A future filled with bright blessings. Let's do this, and show the world why women will NEVER become what man has intended for decades. Centuries even.

How do you join the movement?

It is simple.

We swap and display one another's logos.

I need your permission to do this.

Kindly indicate in the contact form on the Sisterhood page that you wish to sign up.

I will then send an email asking for written permission to display your logo on The Spiritual Third Way website and for an attachment (not a link) of your logo as a jpeg, and then... we do as we promised.

That's it.

By giving me permission to display your logo, or (group, charity, company, organisation) name on my supporter's page, while you display the Third Way flag, it is a sign to all women that we are working together, as one in our own individual, unique ways towards the same cause.

Thank you, beautiful soul.
